Guidelines for authors

Journal of Automation, Mobile Robotics and Intelligent Systems (JAMRIS) is a scientific peer reviewed open access quarterly, published by the Industrial Research Institute for Automation and Measurements (PIAP). The topics covered include but are not limited to theory and applications of automation, robotics, distributed systems, navigation, sensors, mechatronics biomechatronics and mobile computing. Original manuscripts, not published earlier elsewhere, can only be accepted for publication in JAMRIS.

Preparation of a manuscript
Compulsory requirements for the manuscript:

- written in English,
- consists of the following compulsory elements (in the order stated below):
  - a title,
  - the first and last names of the author(s),
  - an abstract (300 words or less),
  - keywords,
  - the article text,
  - the affiliation (organization, postal address, city, zip code, country), e-mail, for each author; for a multi-author paper the corresponding author should be marked with an asterisk,
  - references in the IEEE style (https://www.ieee.org/content/dam/ieee-org/ieee/web/org/conferences/style_references_manual.pdf),
- all tables and figures referred to in the article text,
- numbered footnotes, if any,
- length of no more than 20 pages formatted according to the journal style.

Templates for a JAMRIS article are available for LaTeX and MS Word.

The papers are formatted/typeset, and no camera-ready manuscripts are expected.
The papers submitted are reviewed by two independent reviewers selected by the Editor-in-Chief and Executive Editor in agreement with the Program Committee. Upon acceptance, the authors may be asked to format their paper according to the journal style and editorial suggestions. The authors are asked to proofread and accept their final manuscripts before they are sent to print.

Manuscripts should be submitted to the Executive Editor via the online submission system:
