DOI: 10.14313/jamris-2025-040

The article entitled “Simulation Study of Ship Vibration Regeneration System Using 6-DoF Gough-Stewart Parallel Robot” written by Anh Nguyen Duc and Nguyen Quang Vinh published in Journal of Automation, Mobile Robotics and Intelligent Systems, Volume 18, No 2, 2024, page 24–30, DOI: <https://doi.org/10.14313/JAMRIS/2-2024/10> was retracted.

This article has been withdrawn at the request of the authors. The authors informed the Editorial Office that the author list requires revision to accurately reflect each contributor’s role and contribution to the research. To ensure transparency and uphold authorship ethics, the authors have decided to withdraw the manuscript while they address this matter internally.

The Editorial Office acknowledges the authors’ integrity and their commitment to maintaining ethical standards in scholarly publishing.

The Publisher regrets any inconvenience caused to readers and appreciates the understanding of the academic community.
